

Director of Pharmacy

Dalton Boggs & Associates has been retained by a Children's Hospital located in the Tampa Bay area to find a Director of Pharmacy. This facility is the only licensed, free standing pediatric hospital on Florida's west coast and is dedicated to advancing treatment, education, research and advocacy in child health. They offer a comprehensive scope of services including medical, surgical, diagnostic, rehabilitative, and patient/family support services to patients in their market area including 11 specialty ambulatory centers. Additionally, they just completed construction and have moved into a brand-new state-of-the-art replacement hospital and outpatient care center that more than triples their facility space.

The Director of Pharmacy is responsible for all pharmacy departmental operations and functions within the system's continuum of care to provide integrated services in the inpatient and outpatient/ambulatory settings. They are nearly fully automated using an EMAR, almost complete with CPOE and will be putting in place medication bar code/bedside scanning in the near future. There are three satellite pharmacies in the hospital and two ambulatory pharmacies as well as a retail pharmacy and there are over 60 FTEs.

All inquires will be held in the strictest of confidence. There will be a competitive compensation, benefits, and relocation package available. If you know of anyone who may want to receive some more detailed information about this exciting opportunity and the community, please have them call, contact or submit a resume in confidence to:
