ATTENTION: PHARMACISTS SEEKING SUPPLEMENTAL INCOME OPPORTUNITIES

If you are a pharmacist with occasional (or frequent) extra time on your hands, seeking to turn some of those extra days into extra dollars, there is now a new website to assist you.

This notice is to introduce Temp-Practitioner.com, a new website designed to help employers locate you with potential fill-in opportunities. Many local and corporate pharmacies in your area are frequently searching for a pharmacist to fill in for them temporarily, or regularly, while the usual pharmacist is unavailable due to illness, vacation, family events, etc. Also, there are many locations seeking pharmacists for regular part-time opportunities.

Many of these opportunities will arise suddenly, and it is the goal of this new site to facilitate the matching of employers with those pharmacists who might be available for occasional hire.

REGISTRATION OF YOUR AVAILABILITY IS FREE. Once you register on the site, you will be listed in the database for potential employers to contact you directly (by the protected contact method of your choice) with opportunities that become available in your area. Registration does not obligate you to any of the opportunities that might become available. Your information will be private and protected, and YOU MAY EDIT OR REMOVE YOUR LISTING AT ANY TIME.

Negotiate your own terms of employment, including dates, times, compensation, travel expenses, etc. directly with potential employers when they contact you.

So visit Temp-Practitioner.com now to register your availability to turn extra time into extra income and help meet your financial goals faster.

REGISTRATION IS FAST, FREE, AND THERE IS NO OBLIGATION!
