(PHEP) Cooperative Agreements Grant,
And West Virginia Poison Center*

Training Session Description

The Strategic National Stockpile (SNS) is a federal program that supplies states with the medications and antidotes that will be required to treat mass numbers of victims following a biological, chemical, or nuclear weapons of mass destruction event. Pharmacists practicing in retail, clinic, or hospital settings, or pharmacists who are retired, will have an important role to play in the implementation of the SNS program in West Virginia. The purpose of the Weapons of Mass Destruction Task Force training is to give pharmacists the knowledge and training they will require in order to participate in the implementation of the Strategic National Stockpile (SNS) plan and medical countermeasures plans at their work sites and in their communities.

Learning Objectives*

At the end of this training session, the pharmacist will be able to:

1. Use knowledge of smallpox and the smallpox vaccine to act as the consulting pharmacist and volunteer in a Strategic National Stockpile (SNS) Smallpox Vaccination Clinic.
2. Use knowledge of anthrax and prophylactic therapies for anthrax to act as the consulting pharmacist and volunteer in a Strategic National Stockpile (SNS) Point of Dispensing Site.
3. Use knowledge of smallpox, anthrax, plague, tularemia, viral hemorrhagic fever (e.g., Ebola), ricin, nerve agents, influenza, emerging infectious diseases, and radiation to act as a health care practitioner participant or volunteer following a weapons of mass destruction event or other public health emergency in West Virginia.
4. Use knowledge of the Strategic National Stockpile to function within West Virginia's Disaster Response Plan following a weapons of mass destruction event in West Virginia.
5. Role-play giving smallpox vaccine.
6. Apply lessons learned from mass vaccination and dispensing of a point-of dispensing or vaccination SNS clinic in the community.

****This activity, ACPE UAN 0072-0000-15-024-L04-P was originally presented April 18, 2015 in Morgantown, WV. If you attended this session additional credit will not be awarded.***

Agenda

9:00 - 9:15am	<i>Introduction</i>

Continuing Education

West Virginia University School of Pharmacy (WVU SoP) is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. This activity, ACPE UAN 0072-0000-15-024-L04-P is approved for 6.0 contact hours (0.6 CEU's) of continuing pharmacy education credit. WVUSoP will report your participation in the activity to NABP CPE Monitor within 4-6 weeks for all participants who successfully complete the training session. Successful completion includes attending the entire training session, signing the attendance sheet and completing an online evaluation form for this activity. If needed, a statement of credit may be printed on-line at <https://pharmacyce.wvu.edu/user/login>.

Other Information

Please contact the WVU Office of Continuing Education at WVUSOPCE@hsc.wvu.edu or (304) 293-5103 with questions or for more information. You can also visit us on the web at <http://pharmacy.hsc.wvu.edu/ce/Home>.

Faculty

Elizabeth J. Scharman, PharmD, DABAT, BCPS, FAACT
Deputy Strategic National Stockpile Coordinator, WV Director, West Virginia Poison Center
Professor, Department of Clinical Pharmacy
WVU School of Pharmacy, Charleston, WV

Dr. Scharman has been involved with the Strategic National Stockpile since its beginning in West Virginia (December 2001) and has been with the West Virginia Poison Center and the West Virginia University School of Pharmacy since July of 1992. She has also been involved with the Kanawha/Putnam Emergency Planning Committee since 1994. She received her BS in pharmacy from Butler University in Indianapolis, Indiana, her PharmD from Virginia Commonwealth University (Medical College of Virginia), and completed a Fellowship at the Pittsburgh Poison Center/University of Pittsburgh.

Location and Parking

WVU School of Pharmacy, Health Sciences Center, Morgantown, WV

From I-79, take exit 155 (West Virginia University and Star City). From the north (I-79 South), turn left at the bottom of the exit ramp. From the south (I-79 North), turn right at the bottom of the exit ramp. At the 2nd traffic light, turn right onto US 19 South (by Sheetz). Stay on US 19 to the 2nd traffic light (the WVU Coliseum - large domed concrete building on the right). Turn left onto Patteson Drive. Get into the right lane and proceed through the next 2 traffic lights.

Just before the 3rd light, turn right onto Elmer Prince Drive (WVU Erickson Alumni Center will be on the right). Move to the left lane and follow the signs to McQuain Pavilion (the road will curve uphill). Immediately past the small guard booth, make a left into the parking lot. Enter the Health Sciences Center South through the Pavilion Entrance (uphill from parking lot). There will be a WVU School of Pharmacy sign outside directing you to the program. Upon entering the building, follow the signs to room 2940 A and B located on the 2nd floor of HSC North

Since this is a weekend event, parking is available at the Health Sciences Center in the parking lot past the small guard house.
